## Project Submission Guidelines and Format

### Guidelines:

1. Any one member from each group will submit word file of project documentation to me through email.
2. Specify Project title, Rollno.s and Names of all the group member in subject line of the mail.
3. Each group will prepare project documentation as per the prescribed format and submit in word file.
4. Save word file with the name  
ProjectTitle\_Rollno1\_Name1\_Rollno2\_Name2\_Rollno3\_Name3
5. Submit word file of the project documentation on or before **12<sup>th</sup> April, 2019**.
6. Final project presentation will be done in class/lab during **15<sup>th</sup> to 19<sup>th</sup> April, 2019**. Groups will be called randomly.
7. Groups will be evaluated on the basis of continuous project progress.

**Format of Word File:** Prepare documentation as per the sequence given below.

1. Add these details on the first page of your word document : Programme Name (BTech-ICT), Semester, Course Name, Project title, All Group Members' Roll No.s and Names in ascending order of RollNo.s
2. Add the following details in sequence from second page onwards.
  - a. Description of Project : Describe the project in detail with proper flow. Explain each functionality which is included in the project. (System Requirement Specification)
  - b. Entity-Relationship Diagram
  - c. Table Design (Data Dictionary)
  - d. Stored Procedure, Functions and Triggers (With code and statement to call procedure, function)
  - e. Screen shots of results generated after procedure and function are called
  - f. Screen shots of errors generated on front-end when trigger is violated
